CD15nx Ozone Generator

# **CD15**nx

#### **Corona Discharge Ozone System**

ClearWater Tech, LLC, the industries leader in mid range ozone generators, has revolutionized the industry again with their latest offering, the CD15nx, the next generation of ozone generators. The CD15nx is the most advanced ozone generator available today. With the industries first on-board System Information and Diagnostics (S.I.D.) LCD display, which provides a seamless user interface to control and monitor ozone production and system diagnostics, and can be displayed in various languages.

The CD15nx allows for universal power input and produces fifteen grams per hour (15g/h) at five percent concentration by weight (5%), with oxygen feed gas. The new drive circuitry of the CD15nx utilizes CWT's Self-Resonating Technology (SRT), which allows the system to automatically adjust for pressure, flow, and other potential current variations to optimize ozone output and the systems electronic stability.
