

Peracetic Acid

for Water Quality Testing (480065)

Peracetic acid is a versatile disinfectant and powerful oxidizer, used in a wide range of applications primarily in the food industry.

WaterWorks™ Peracetic Acid test strips are a quick and reliable way to check water quality without the hassle of reagent drops or bulky test kits. This easy visual dip and read method takes only 32 seconds. Simply dip the strip into the sample for 2 seconds, shake and wait 10 seconds for color development and match the strip to the color blocks within 20 seconds. The strips low detection levels are 0, 2, 5, 10, 20, 30, 40, 100 ppm. No sample dilution is required and a 3-year shelf life makes the WaterWorks™ Peracetic Acid the preferred choice for Peracetic Acid field testing levels.

Detailed Specifications:

Part #	Detection Levels
480065	50 Tests 0, 2, 5, 10, 20, 30, 40, 100 ppm
