

Extended Range pH Check

For Water Quality Testing (480104)

No matter what your application, WaterWorks™ pH Check for water quality testing is the convenient measurement tool for accurate, rapid pH detection in tap water, process water and control, ponds, lakes, and streams. Utilizing a dual-pad indicator system is what makes this pH test unique. Both indicators are designed to work in unison, providing a wide range of color development. Additionally, the dual-indicator system makes color matching easier and more reliable since both colors are uniquely different from each other. With its wide range of detection, low cost per test, and safe chemistry, WaterWorks™ pH Check is the ideal choice for fast, accurate pH detection you can trust.

Detailed Specifications:

Part #	Number of Tests	Sensitivity	Total Test Time
481104	Bottle of 50 Test Strips	12 ,11 ,10 ,9.5 ,9 ,8.5 ,8 ,7.5 ,7 ,6.5 ,6 ,5 ,4 ,3 ,2	30 Seconds
