

## Nitrate indicator strips

This test allows a quick and easy method to determine the nitrate in solution.

Nitrate results from biological decay from plant and animal matter as a by-product. Nitrates can be found in farming areas where fertilisers are used and as a results of some industrial effluents. Nitrate Indicator strips can be used to estimate the level of nitrate in soil and in pools and aquariums as a test for water quality.

Product	Description	Presentation	Product Code
Nitrate Indicator Strips 0 - 500 mg/L (ppm)	0 - 10 - 25 - 50 - 100 - 250 - 500 mg/L (ppm)	50 strips per pack	176.5
		100 strips per pack	176.5C

nitrate 0-500
