

KYNAR® PVDF HD 4000

PVDF flexible linear tube, abrasion resistant and suitable for use in applications that require chemical resistance with low permeability.

FEATURES

KYNAR® tube HD 4000, vinylidene polyfluoride (PVDF) rigid. Among PVDF products it is the most **resistant to abrasion and temperature** and **boasts excellent mechanical resistance** in use with many chemicals and solvents. It is a material intrinsically **resistant to light, heat, aging** as well as being intrinsically **self-extinguishing** UL94 V0. It is one of the food grades of our production.
