

PERISTALTIC PUMP IPI96

Peristaltic pump with fixed flow can be configured from 5 l/h to 150 l/h, ignition through external system, open case, 400 VAC power supply.

Standard specifications

Suction m.: **4**

Input: **400 Vac 50 Hz 3 Fase/230 vac 50 Hz**

Typical application: **Industrial processing**

Dimensions: **156 x 165 x 306**

Delivery head m.: **10**

Body material: **Aluminium**

Head material: **Aluminium**

Tubing material: **MTG**

Channels: **1**

Weight Kg: **6.800**

Flow rate **250 ml/min**

Motor power: **0.12 kW**

Delivery head: **4 Bar**

Reversibility: **S**

Rollers: **2**

Body: **IP55**

Flow rate tolerances: **± 5%**

Standard tubing: **9.6 x 16**

Variants possible on request

> Adjustable flow with Inverter or Motovariator

> Pressure 3 Bar
