

9011 pH Meter

Pointed pH electrode · Flat pH electrode

9011S

9011F

Features

- The microprocessor-based design and rugged housing with a splash-proof keyboard ensure durability and protection against water splashes.
- The pointed pH electrode is suitable for semi-solid samples.
- With a stainless-steel piercing head, the pointed pH electrode can be used for samples that require piercing, such as meat.
- Flat pH electrodes can be used for small quantities of samples or flat samples.
- Reading hold and Max/Min functions.
- Users can change the pH electrode module easily.
- Automatic shutdown feature.

Specifications

| | pH | Temp. |
|--------------|----------------|--------------|
| Range | -2.00~16.00 pH | 0~90 °C |
| Accuracy | ±0.01+1 digit | ±0.2+1 digit |
| Resolution | 0.01 pH | 0.1 °C |
| Compensation | ATC: 0~90 °C | N/A |

Models

- 9011S: pointed pH electrode with a stainless-steel piercing head.
- 9011F: flat pH electrode.

Standard Accessories

- pH buffer solution pH4 and pH 7 50ml
- Soaking solution 5ml
- CR-2032 battery x 4
- Hard carrying case
